Victor Taichung Group is ranked no.5 on M/T sales in 2012

According to this year's issue of the *Common Wealth* magazine released on 15th May 2013, most machine tool sales dropped around 10~25% in 2012 and 16 machine tool builders are ranked in the top 1000 Taiwanese enterprises this year (17 builders last year 2011.) *Victor Taichung Machinery dropped to the 5th position* because the big drop on the sales of PIM (Plastic Injection Molding) machines.

Started since 2006, the sales turnover has been requested to *include all the sales of "share owned subsidiaries or group companies"* so this statistics shows the manufacturing capacity for different groups in Taiwan. In addition, the new financial standard "IFRS" (International Financial Reporting Standards) is applied to Taiwanese public licensed companies from 2013 so it is more and more difficult to identify the sales ranking for the individual company since the sales could be duplicated between companies in the same group.
